

# Former Iraqi establishes Nation of non-Muslims

• By **GERSHOM GALE**

An Iraqi fluent in Arabic represents what he calls the greatest threat to “the cult of Muhammadan Islam” – proof from their own writings that the Koran is neither divine nor original, Allah is not the God of Christians and Jews, Muhammad was not a prophet but a profiteer and that, far from being a religion of peace, the movement the founded creates only violent, non-thinking clones of its founder, frozen forever in the seventh century.

“The greatest threat to civilization and human progress in the 21st century is Fundamentalist Muhammadan Islam,” says I.Q. Al Rassooli. “Many people are oblivious or in denial. Most are still totally ignorant of the facts. Our carefully researched talks on YouTube ([www.youtube.com/AhmadsQuran3](http://www.youtube.com/AhmadsQuran3)) aim to stimulate more open debate.

Born and educated in Iraq, Rassooli was trained to believe that Islam was the only valid belief system in the world, and merely considering any other was a terrible crime. He was taught that Sharia laws were not only just and fair, but had been dictated by Allah himself, so there was not the slightest possibility of questioning them. Blind acceptance was expected and required.

He then had the good fortune to be sent abroad for further education before his Islamic indoctrination was properly completed. As a result, he was able to investigate questions about Islam without fear. He came to see the world as the direct opposite of what he’d been taught.

“Followers of Muhammad call the rest of the world *al Kuffar*, meaning infidels who neither believe in Allah nor submit to Muhammad’s version of Islam. They consider our free lands *Dar al Harb*, or Territory of War, and they view themselves as one *Ummah* or ‘nation’ with agents in every part of the globe

who are planning to conquer us all,” he told *The Christian Edition*.

“This threat’s been unrelenting since Muhammad first declared war on all of mankind in his Koran. The scholars and leaders of Islam assert their intentions in every language every day, though many are evidently unaware of the meaning of either the Koran or the *hadiths* [teachings describing Muhammad’s life, which act as a template for his followers].

“We are their intended victims, and they feel justified in using all means mandated in the Koran to Islamize us. Subjugate, convert or slaughter – that’s their program, and they have no qualms about lying if that’s what it takes.

“Our only hope is to unite in a single, far larger network of non- and ex-Muslims everywhere. The sheer numbers of people now believing these dreadful misconceptions has already reached epidemic proportions – a realization I can only describe as terrifying.

“*Ummat al Kuffar* means Nation of non-Muslims, and includes all Christians, Hindus, Buddhists, Bahai’s, Sikhs, Jews, Animists, Atheists, Agnostics and so on, representing 80% of humanity. Together we must commit to informing, supporting and defending each other everywhere.

“I’ve decided I would devote my life, no matter the risk or personal cost, to sharing my findings. I ask everyone not to take my word for anything but to check the facts for yourselves.”

Al Rassooli is unmoved by the death threats his lectures have already triggered.

“What?” he responds, “am I to be less brave than the soldiers who defend our freedom? Is this battle any less important?”

## NEWS IN BRIEF

## HAMAS MEN STEAL BLANKETS, FOOD FROM UNRWA AT GUNPOINT

Armed Hamas policemen broke into a Gaza City warehouse and took thousands of blankets and hundreds of food packages intended for UNRWA refugees, an official from the relief agency said last month.

The incident took place after the Social Affairs Ministry tried to confiscate food and other supplies being transported to UNRWA’s storage facilities and the agency’s staff resisted, said John Ging, the organization’s operations director in the Gaza Strip.

A few Hamas policemen took 3,500 blankets and more than 400 food packages prepared for distribution from an UNRWA warehouse, he said.

“They took it at gunpoint. We are very upset about this,” he said. “This is stealing aid destined for the refugees. We have demanded that it be returned.”

An IDF official said the army noticed such thefts during Operation Cast Lead when, despite the fighting, Israel allowed almost 80 trucks a day into the Strip. Nuaf Atar, a Fatah man captured during the offensive, told the Shin Bet (Israel Security Agency) that Hamas government officials “took over” humanitarian aid Israel allowed in and sold it.
